

18 Credits in 2 1/2 days and meet the
Requirements for Patient Safety
& Ethics in the next renewal period!

Offered: 2 hours of required Child Abuse Mandated Reported

Conference at the

SLOPES

40th Annual

February 26-28, 2020

Seven Springs Mountain Resort
Champion, PA

University of Pittsburgh at Johnstown
Respiratory Care Program

Formerly: Cambria-Somerset Council
for Education of Health Professionals, Inc.

"The educational content of this program has been endorsed by the PSRC."

PURPOSE & TARGET AUDIENCE

This conference has been designed to provide healthcare professionals (respiratory care professionals, physicians, physician assistants, nurse practitioners, registered nurses, sleep technicians, licensed practical nurses, and nursing assistants) working in acute, long term, home health, rehabilitation and other healthcare settings with up-to-date and evidence based clinical data in Primary and Pulmonary Care. Emphasis will be placed on the practical application of content presented. The didactic lectures and panel discussions will allow ample time for participant feedback and interaction.

Topics for this year's conference have been selected based on identified professional practice gaps that resulted from extensive target audience needs assessment data. The needs assessment data were derived from a variety of sources including evaluations and outcomes data from past participants and clinical expert input. Topics include the latest respiratory care techniques, procedures and considerations, patient safety, ethics and adult and pediatric issues for today's medical professionals.

CONTINUING EDUCATION CREDITS:

American Association for Respiratory Care (AARC)

Application has been made to the American Association for Respiratory Care (AARC) for (18) eighteen continuing education contact hours for respiratory therapists.

American Association of Sleep Technologists (AAST)

Application has been made for (18) eighteen CECs by the American Association of Sleep Technologists.

Registered Nurses, Surgical Technologists, Licensed Practical Nurses, Nursing Assistants, PAME and other Healthcare Professionals

CE Hours: This program has been approved for (18) eighteen CE hours by the University of Pittsburgh at Johnstown.

IMPORTANT NOTICE: In order to receive continuing education credits, all attendees are required to complete and return a credit attestation form, pre-post test, and complete the on-line evaluation. Certificates will be emailed within two weeks after the conference.

"STOP THE BLEED" Certification.....LEARN HOW TO SAVE LIVES: The "Stop the Bleed" presentation will be held on Wednesday, February 26, 2020 from 1:30-2:30pm. Any conference participant interested in becoming certified in "Stop the Bleed", can attend interactive sessions.

Wednesday, February 26, 2020

WEDNESDAY, FEBRUARY 26, 2020

NAMETAGS MUST BE WORN TO ALL CONFERENCE ACTIVITIES

6:30—7:30 AM VENDOR SETUP—EXHIBIT HALL
7:30—8:15 REGISTRATION- STAG PASS...REFRESHMENTS AND PROMOTIONAL EXHIBITS—EXHIBIT HALL
8:15—8:30 WELCOME & ANNOUNCEMENTS—Chris Spinos, RN, BSN —GRAND BALLROOM

8:30—9:30 KEYNOTE LECTURE—GRAND BALLROOM
#01 Market Disruptors, Health Equity and Community Health
Patricia Raffaele, Healthcare Council of Western Pennsylvania

9:30-10:00 VISIT PROMOTIONAL VENDOR EXHIBITS—EXHIBIT HALL

Thank you!***

SNOWTUBING

Ten years and older without adult supervision - Four to Nine years must have adult supervision. Snow tubing is the sledding of the millennium. For the beginner, this is the ultimate in winter sports for anyone who can sit in a rubber tube. There is no hill climbing just the thrill of riding down the runs in your own tube or hooked up with a group of friends. Our veteran tubers know the thrill and the language that includes Head wall, whoopdeedoo and the runoff. Come Join the Fun!

SNOWMOBILING

Awaken your senses and take a thrilling journey across the mountain. One hour tours!
(2 person maximum)

www.7springs.com

After dark snowmobiling for experienced Riders by calling Extension 7913

Snowcat Rides

Take a ride on a snow groomer after the slopes close for the night. Reservations Required
Cabin accommodates 10 passengers. 1 Hour Ride
Ext. 3000

SNOWSHOE TOURS

A Scenic adventure and invigorating workout in the great outdoors!
Ext. 7932

SKIING/BOARDING

Enjoy Day/Twilight Skiing

Conference Special prices!

NOTES OF IMPORTANCE

- ◆ Registration Fee Includes: 18 continuing education credits; Lunch Wednesday and Thursday; Breakfast Buffet Friday; Continental breakfast each day; and Thursday night Pizza Party.
- ◆ **Registration Deadline:** Early registration deadline is **February 14, 2020**. Any registration received after that date will be assessed an additional **\$25.00**.
- ◆ **Cancellation and Refund Policy:** The University of Pittsburgh at Johnstown reserves the right to cancel this program due to lack of registrants. Any participant that cancels their registration is subject to a 30% administrative fee. There will be no refund for no shows or cancellations less than 2 weeks prior to the conference.
- ◆ **Handouts and Certificates: Gone Green! Handouts will be posted online approximately one week prior to the conference. A user name and password will be emailed to you. Certificates will be emailed within two weeks after the conference. PLEASE BE SURE TO CLEARLY WRITE YOUR EMAIL ADDRESS ON THE REGISTRATION FORM.**
- ◆ **Conference Dress:** Room temperatures fluctuate, dress accordingly. Casual dress is recommended.
- ◆ **Confirmation:** Confirmation is automatically forwarded after electronic submission of the registration form.
- ◆ **Services for the Disabled:** The University of Pittsburgh at Johnstown is committed to making its conferences accessible to all individuals. If you have a disability, please check the Individual with Disability box on the registration form. Identify auxiliary aids or services (identified in the Americans with Disabilities Act) required.

PROGRAM OBJECTIVES: *At the conclusion of the program, the participant should be able to:*

Market Disruptors, Health Equity and Community Health 1) Describe market strategies and external forces affecting health care delivery models. 2) Describe new and emerging strategies to advance health equity.

Mental Fitness: Lessons Learned in Working with Warriors (2 Hours) 1) Understand basic neurobiology used with warriors. 2) Contrast good stress vs. bad stress. 3) Develop a personalized stress management system.

Management Panel: HR Cases (2 Hours) 1) develop strategies to manage various staff issues, motivational strategies, evaluations, and rewards.

Reducing COPD Readmissions 1) Identify the Hospital to Home Continuum. 2) Differentiate between “fee for service” model vs. “pay for performance” model. 3) Discuss and identify COPD readmission factors for COPD patients.

Can You Handle the Pressure: Stop the Bleed for the Health Care Professional 1) Describe the current environment leading to increase incidents of mass causality incidents requiring Stop the Bleed procedures. 2) Demonstrate the three major methods of controlling severe bleeding.

Mandated Reporting : Knowing Your Roll in the Protection (2 Hours) 1) Identify signs and symptoms of child abuse. 2) Report child abuse according to the PA Child Protective Services Law.

Identifying and Management of Restless leg Syndrome Effectively 1) Identify Restless Leg Syndrome. 2) Describe effective treatment of Restless Leg Syndrome.

“Stop the Bleed” from Prevention to Management 1) Explain ALICE approach to prevent, mitigate, respond to, and recover from a violent critical incident in a medical center. 2) Through this interactive session, attendees will become certified in “Stop the Bleed”.

Ethics 1) Understand the role of the legal system as it pertains to injured persons. 2) Understand the function of a trial lawyer.

Are you Prepared for Disease “X”? 1) Describe the expectation of public health related to the recognition, initial treatment, and transport of a highly infectious disease patient in Pennsylvania. 2) Discuss the provide an overview of the Pennsylvania Highly Infectious Disease Front Line Facility training program.

Critical Care Medicine: It’s Not All Black & White 1) Explain the importance of physical assessment in the critically ill or injured. 2) Describe the limitations of scans and studies for the critically ill or injured.

Management of Hypoxemic Respiratory Failure 1) Discuss case based scenarios and describe routine therapies for treatment. 2) Review literature to support decisions made in each scenario.

Pectus Excavatum: Case Study 1) Know what tests re used to check the heart and lung function of a patient with pectus excavatum. 2) Describe the treatments available for a patient with pectus excavatum.

Management of Acute Respiratory Failure 1) Discuss case based scenarios and identify patient selection, modes, troubleshooting and exit strategies. 2) Review literature to support decisions made in each scenario.

Respiratory Management and Neuromuscular Disease 1) Understand the pathophysiology that causes the pulmonary morbidity in patients with neuromuscular disease and what can be done to manage it.

Optimizing Mechanical with Graphic Analysis 1) Discuss case based scenarios, identifying modes of ventilation, ventilator patient synchrony vs. asynchrony, and troubleshooting ventilator issues.

ICU Case Studies (2 Hours) 1) Develop evaluation strategies and treatment strategies for unique intensive care cases. 2) Address advantages of modes of ventilation. 3) Notice changes in x-ray results.

OSA and Recent Updates 1) Identify OSA. 2) Provide recent updates in OSA.

Pediatric Assessment: An RT Perspective 1) Discuss case based scenarios, identifying pediatric respiratory distress, stabilization with mechanical ventilation, and troubleshooting basic ventilator emergencies.

Circadian Rhythm Disorders 1) Recognize a variety of devices and methods to assist in mechanical ventilation of patients.

Ethical Considerations: End of Life Care 1) Identify ethical considerations in managing end of life care. 2) Identify strategies to enhance end of life planning for families and patients.

Respiratory Compromise: Common, Costly, Deadly, and Preventable 1) Describe the importance of improving our current respiratory compromise prevention paradigms. 2) Recognize the importance of early recognition and intervention in respiratory compromise.

Then to Now: changes in Medicine Over the Past 35 Years 1) Identify advances in medical care that changed medical approaches and outcomes. 2) Identify historical successes and false starts in caring for patients.

Vaccine Innovations: How to Talk to Anti-vaxxers 1) Be familiar with new available vaccines and their impact on health. 2) Understand the Anti-Vaccine literature and rationale and how best to discuss treatment options for resistant patients.

Honey I Blew Up the Kids: What We Know and What We Don’t Know About Neonatal Ventilation 1) Understand the normal and abnormal respiratory physiology of the neonate. 2) Understand the appropriate and inappropriate ventilation in the neonatal population.

Adult Lung Protective Strategies 1) Describe the need to protect the lungs from injury during mechanical ventilation, both proactively and reactively. 2) Understand the importance of protective ventilation in the adult population.

Cannabis Passim: Current Update 1) Be familiar with emerging literature on the medical use of cannabis. 2) Understand the physiology of cannabis for medical and recreational use.
