Be Water Smart!

Reach or throw, don't go!
Community pools, recreational areas and many hotel and motel pools have reaching equipment, such as a reaching pole or shepherd's crook, near the water.

Think so you don't sink!
If you get caught in a rip current it is important to remember to think so you don't sink.

Think twice before going near cold water or ice!

Floating in place until help arrives is the best way to survive a cold-water emergency in open water or when a great distance from the shore.
